

# SHAPE THE FUTURE OF WATER RESOURCE MANAGEMENT WITH A NEW QUALIFICATION...

## Level 3 and Level 5 Award in Water Efficiency

Water is life, but only 2.5% of Earth's water is freshwater—and much of it is out of reach in glaciers or underground. In the UK, despite frequent rainfall, seasonal shortages and rising demand are driving the need for smarter Water Resource Management. This is your opportunity to lead the change with the new Level 3 and Level 5 Award in the Management of Water Efficiency.

This level 5 qualification is tailored for professionals who want to turn their expertise into action, from project and operational managers to department heads and specialists. The level 3 qualification is aimed at field personnel working in the Water Industry who require an understanding of the principles of Water efficiency. They both deliver cutting-edge insights and practical skills to tackle one of the Industries most pressing challenges: efficient water use.

### Discover What Sets This Course Apart:

- Gain a deep understanding of Water Efficiency legislation and its impact on industry practices.
- Develop strategies that make water conservation a reality, protecting vital resources.
- Master the role of Per Capita Consumption (PCC) in effective water usage.
- Explore innovative products and behavior-change strategies that make a lasting difference.
